

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listing, of claims in the application:

Claims 1-23 (Canceled).

24. (New) An ATV comprising:

a frame;

a straddle seat mounted on the frame for supporting a driver;

wheels suspended from the frame, the wheels including a front pair of wheels mounted on a front wheel axle and a rear pair of wheels mounted on a rear wheel axle, each wheel including a low pressure balloon tire;

a handlebar disposed on the frame, the handlebar being operatively connected to at least one of the wheels for steering the vehicle;

an engine mounted on the frame, the engine being operatively connected to at least one of the wheels to propel the vehicle;

a transmission associated with the engine;

a differential connected to the frame;

a half shaft operatively connecting the differential to a wheel, the half shaft including a first joint and a second joint, the first joint being proximate to the differential; and

a brake disk connected to the first joint.

25. (New) The all-terrain vehicle of claim 24, wherein the joint further includes a coupling, the brake disk being connected to the joint via the coupling.

26. (New) The all-terrain vehicle of claim 24, wherein the joint further includes a flange, the brake disk being connected to the joint via the flange.

27. (New) The all-terrain vehicle of claim 24, further including a second half shaft including a third joint and a fourth joint, the third joint being proximate to the differential and a second brake disk connected to the third joint.

 28. (New) The all-terrain vehicle of claim 24, wherein the brake disk is a floating-type disk.

29. (New) The all-terrain vehicle of claim 24, further comprising a caliper associated with the brake disk.

30. (New) The all-terrain vehicle of claim 29, wherein the caliper is connected to the differential.

31. (New) The all-terrain vehicle of claim 29, wherein the caliper is connected to the frame.
